

Michael Kalchman, Ph.D has 10 years experience in recruitment and consulting across a variety of disciplines. His B.Sc is in Genetics, as is his Ph.D, focused on neuropsychiatric disorders, provides him with an excellent and deep understanding of the influence that personality plays in someone's daily life, both at home and in the workplace. By working with DNA HR Consulting, he is excited to implement and execute the numerous psychometric tools we have to offer.
